

Single point of contact support along cancer pathway

Stages in a person's journey through the cancer pathway that Single Point of Contact (SPoC) services support. Services may support patients earlier or later in along the pathway. This visual outlines the stages with the main focused SPoC support. Information is accurate as at July 2024.

Notes

Services are described for each funded site. Greater Glasgow and Clyde Gyn and Lung pathways are supported by separate funding bids. Services in other health boards support multiple tumour types.

Acknowledgements

We would like to thank all the teams for sharing their SPoC delivery model with Healthcare Improvement Scotland to be used within this visual.
