Requirements and Recommendations	Action Planned	Timescale	Responsible Person
Recommendation a: The service should carry out infection prevention and control audits. Audits should be documented and improvement actions implemented.	Small audits specifically looking at the clinic environment. Including equipment, the condition of the environment including floors, paintwork , general maintenance and any repairs required with specific focus on prevention of infection. Ensuring surfaces are cleanable and maintained.	These will be done every 6 months and this can be evidenced. Any faults or issues requiring attention can be addressed if required.
