

# Welcome webinar Adults in Hospital

25 November 2025

Leading quality health and care for Scotland

# Welcome

**Jo Matthews,**  
**Associate Director of Improvement and Safety**

# Aims

- Learn about the SPSP Adults in Hospital programme
- Outline what to expect and how to get started as a participant in the new programme
- Provide an opportunity to connect with colleagues from across Scotland

# Agenda

Time	Topic	Lead
1.30pm	<b>Chair's welcome</b>	Joanne Matthews, Associate Director of Improvement and Safety, Healthcare Improvement Scotland
1.45pm	<b>Opening Remarks</b>	John Harden, National Clinical Lead for Quality and Safety, Scottish Government
1.55pm	<b>Perspectives on Leading Safety Improvement</b>	Peter Moore, Chief Executive Officer, NHS Borders
2.10pm	<b>Q&amp;A</b>	All
2.15pm	Comfort break	
2.25pm	<b>Delivery of the new programme</b>	Meghan Bateson, Portfolio Lead, Healthcare Improvement Scotland
2.40pm	<b>Application of a tool to understand readiness for change</b>	Carolyn Armstrong, Consultant Geriatrician, NHS Lothian
2.50pm	<b>Workstream discussions</b>	All
3.20pm	<b>Next steps and evaluation</b>	Joanne Matthews
3.30pm	<b>Close</b>	

# Scottish Patient Safety Programme (SPSP)

**SPSP aims to improve  
the safety and reliability  
of care and reduce harm**

## **Core themes**

**Essentials of Safe Care**

**SPSP Programmes  
Perinatal | Paediatric | Adults in Hospital  
Mental Health**

**SPSP Learning System**

# Acute Adult Collaborative 2021-2024

## **SPSP Acute Adult collaborative**

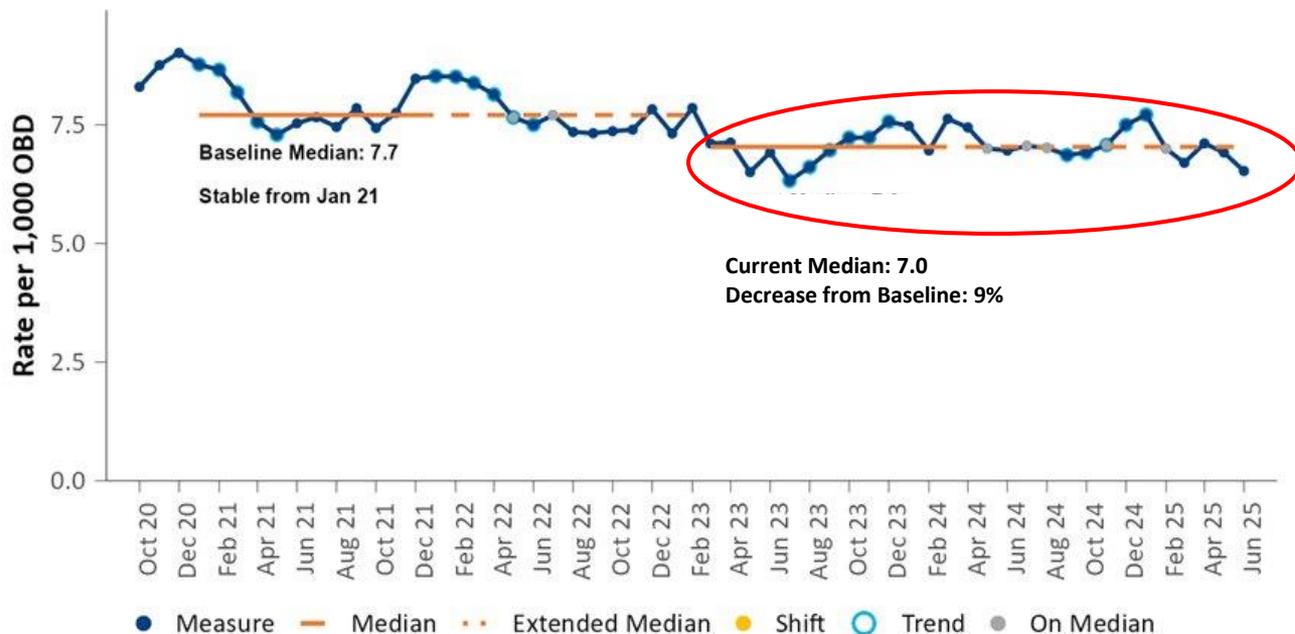

- Reduce falls and falls with harm
- Improving recognition, and timely intervention for deteriorating patients

# SPSP Acute Adult: Falls

## All Falls Rate per 1,000 OBD for Scotland – October 2020 to June 2025

NHS Scotland  
All Submitting Sites

### All Falls Rate

Leadership to support a culture of safety

Person centred approaches to care

Multidisciplinary team communication and approach

Promoting safer mobility through clinical and care processes

# Understanding what supported the change

Connection

Support

Focus

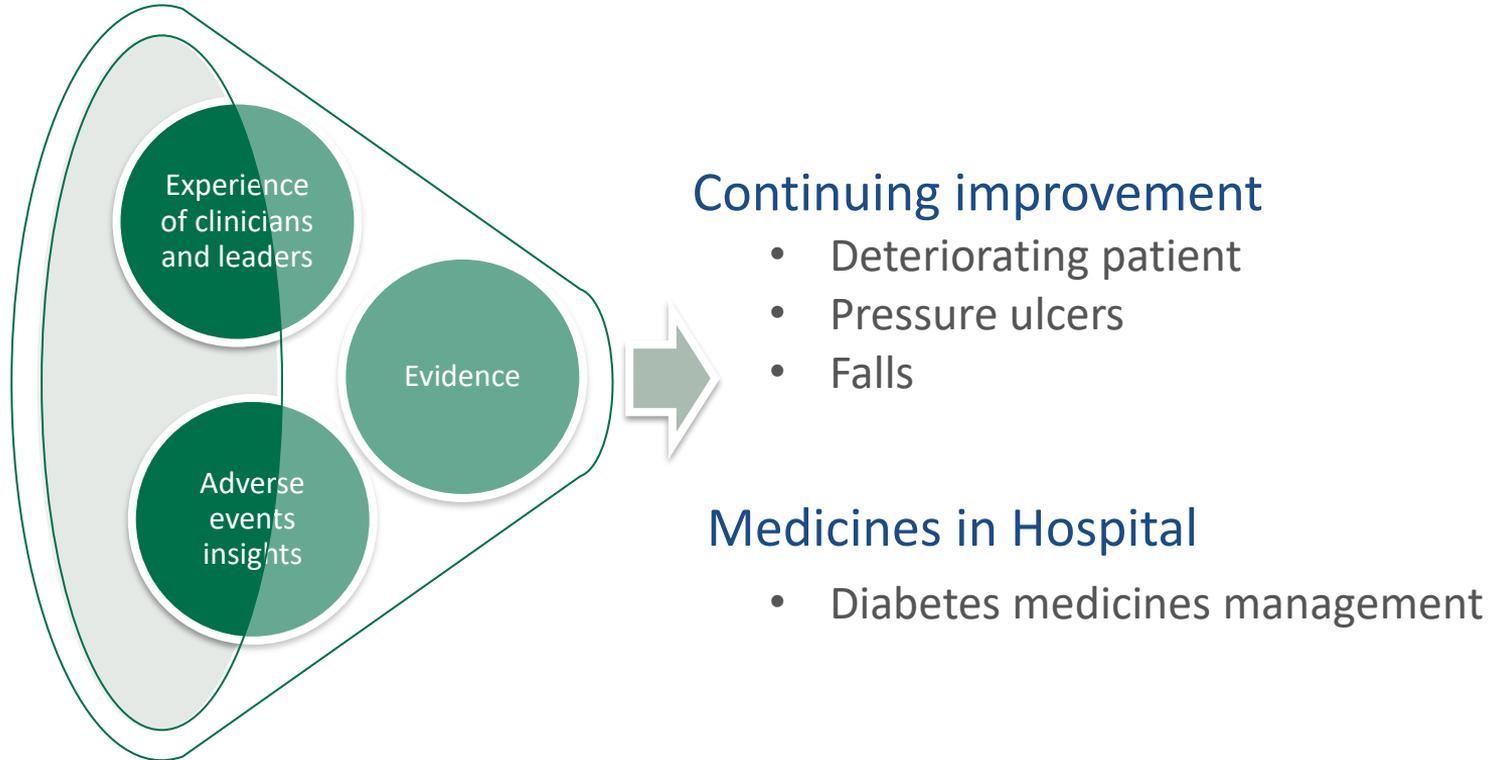

Improvement resources

*“Data Submissions acted as a prompt to make sure governance processes were in place , which in turn allowed us to highlight the improvement work across the organisation”*

*Strategic leader*

# SPSP Adults in Hospital – identifying the focus

# SPSP Adults in Hospital

**SPSP Adults in Hospital aims to improve outcomes and reduce harm for adults in hospital across Scotland**

## SPSP Adults in Hospital

### SPSP Essentials of Safe Care

#### Workstreams

Medicines | Falls | Deteriorating Patient | Pressure Ulcers

#### Learning System

# Essentials of Safe Care 2025

## Our vision is

**The delivery of safe care, improving outcomes for every person, every time across health and care**

## Delivered through ...

A people-led approach to the planning and delivery of safe care

Effective and inclusive communication

Leadership at all levels to support a culture of safety

Safe clinical and care processes

## Which requires...

People and professionals are equal partners in shared decision making

Care and support is shaped to meet the needs of people

People, families, carers and staff are systematically listened to, and concerns are acted upon

Communication tailored to individual needs and preferences

People and teams feel safe and able to speak up

Team communication and collaboration

Leadership is compassionate and inclusive

Staff feel supported and valued

Learning system for continuous improvement

Everyone has the opportunity to learn and develop

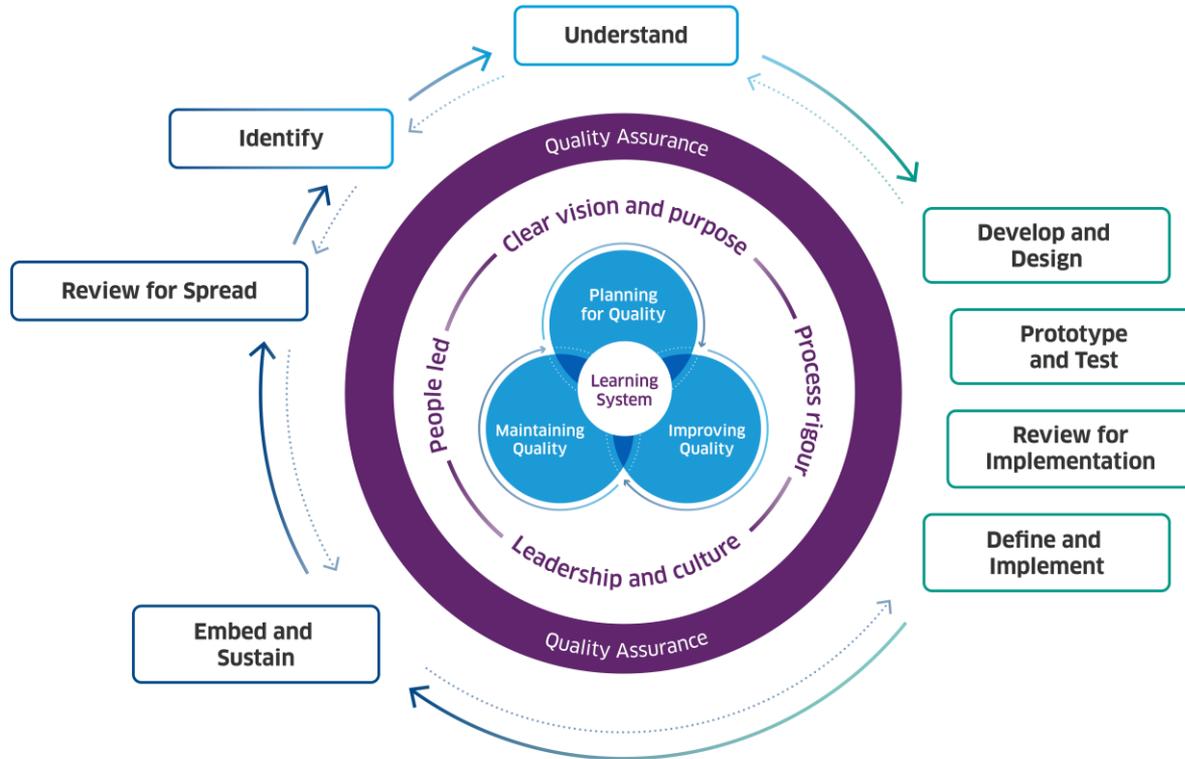

Safe staffing and skill mix

Care is up to date and evidence based

Clinical and care governance structures support safety

Information systems that work together

# Continuous improvement

# What we need for successful change

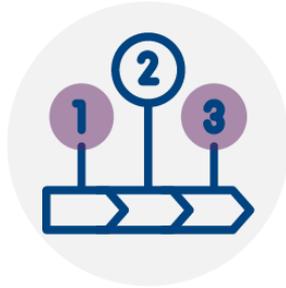

Clear Vision and Purpose

Learning system

# Opening Remarks

**Dr John Harden**

National Clinical Lead for Quality and Safety

# Perspectives on Leading Safety Improvement

**Peter Moore**

Chief Executive Officer, NHS Borders

# Programme Delivery

**Meghan Bateson**

Portfolio Lead: Perinatal, Paediatric and Adult Care  
Healthcare Improvement Scotland

# Where we're going and who we're going with

14 boards

Focus to end of spring 2026:  
understanding systems

# Learning from teams

## For the programme

Increase data sharing

Aligned reporting

Increase visibility of SPSP

More opportunities to get together

## For teams

Increase patient and family involvement

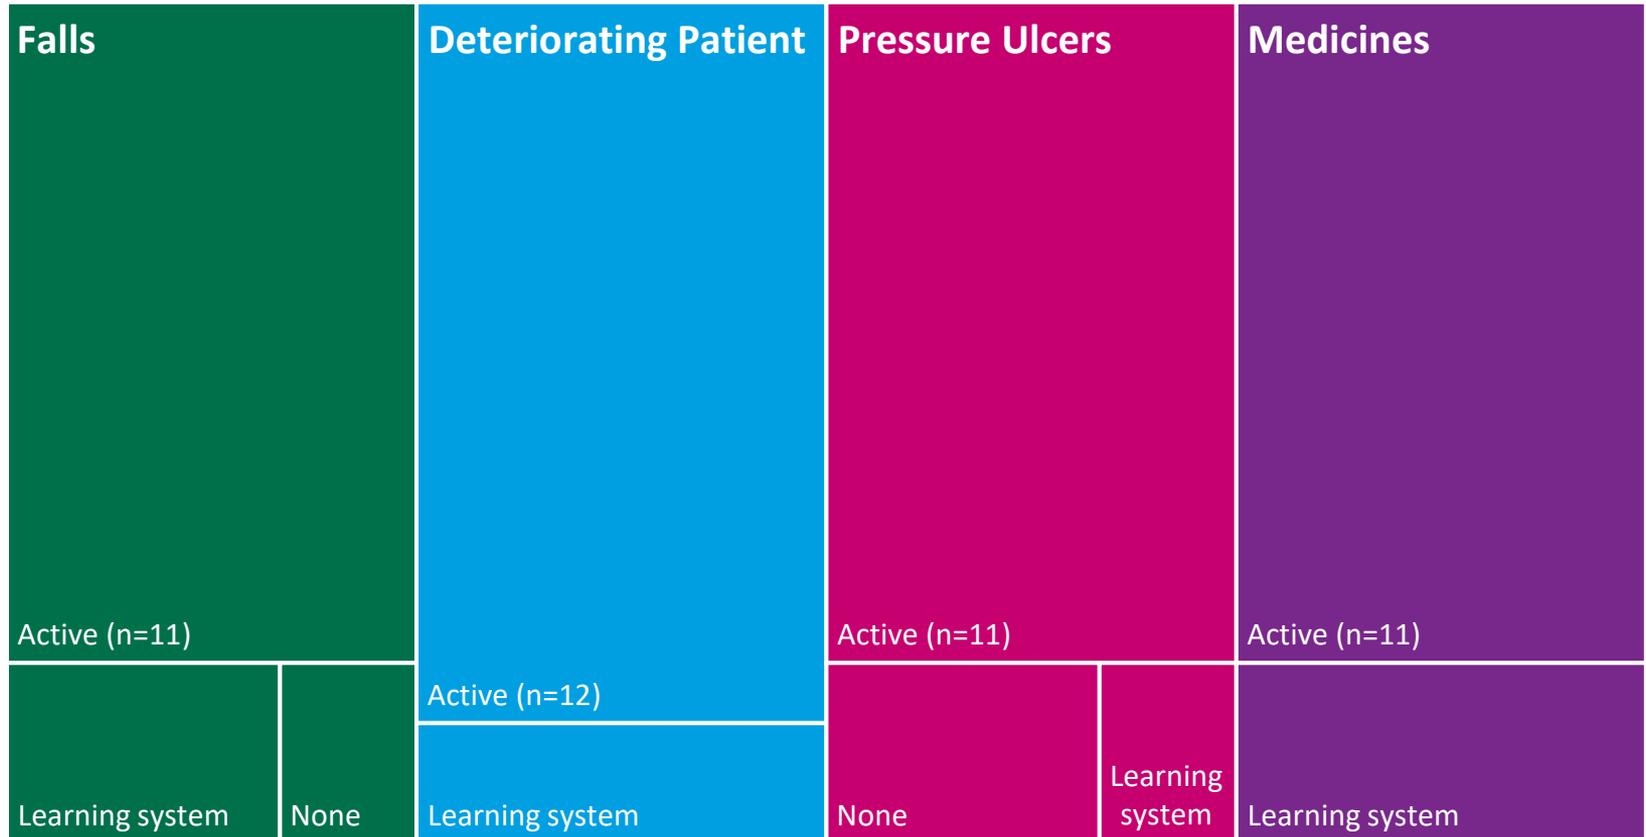

Increase diversity of clinical expertise within teams

Anticipate and manage competing improvement priorities

Make it easier for clinicians to be involved

Test changes at both system and team level

# 14 boards working together

# Improving safety and experience

Clear Vision and  
Purpose

# Further together

# Application of a tool to understand readiness for change

Carolyn Armstrong  
Consultant, Medicine for the Elderly  
NHS Lothian

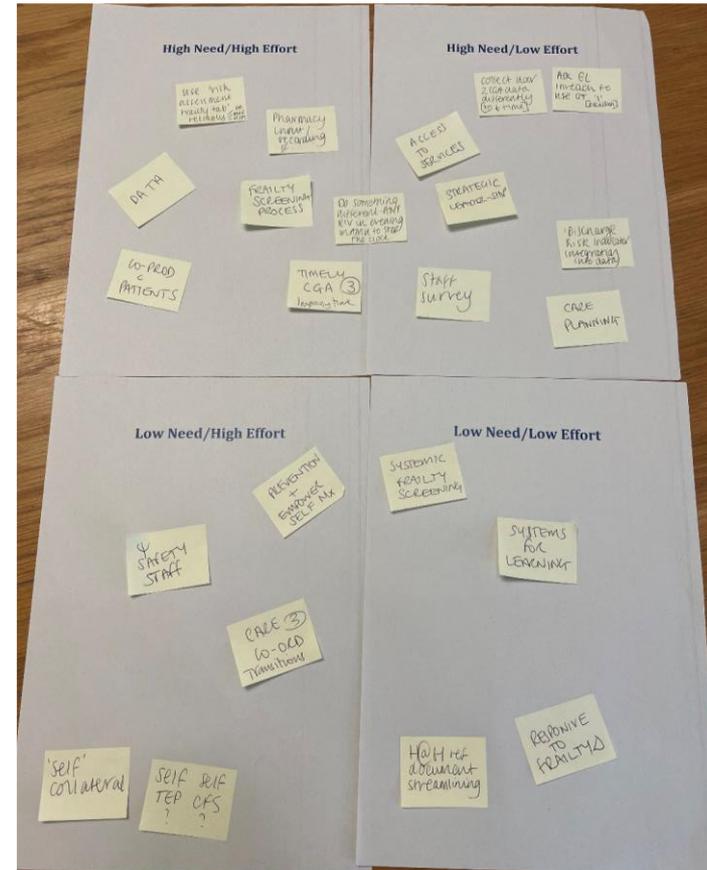

# Context

- Front door frailty team, RIE
- HIS Focus on Frailty April 25
- Aim to improve our service against HIS Frailty standards

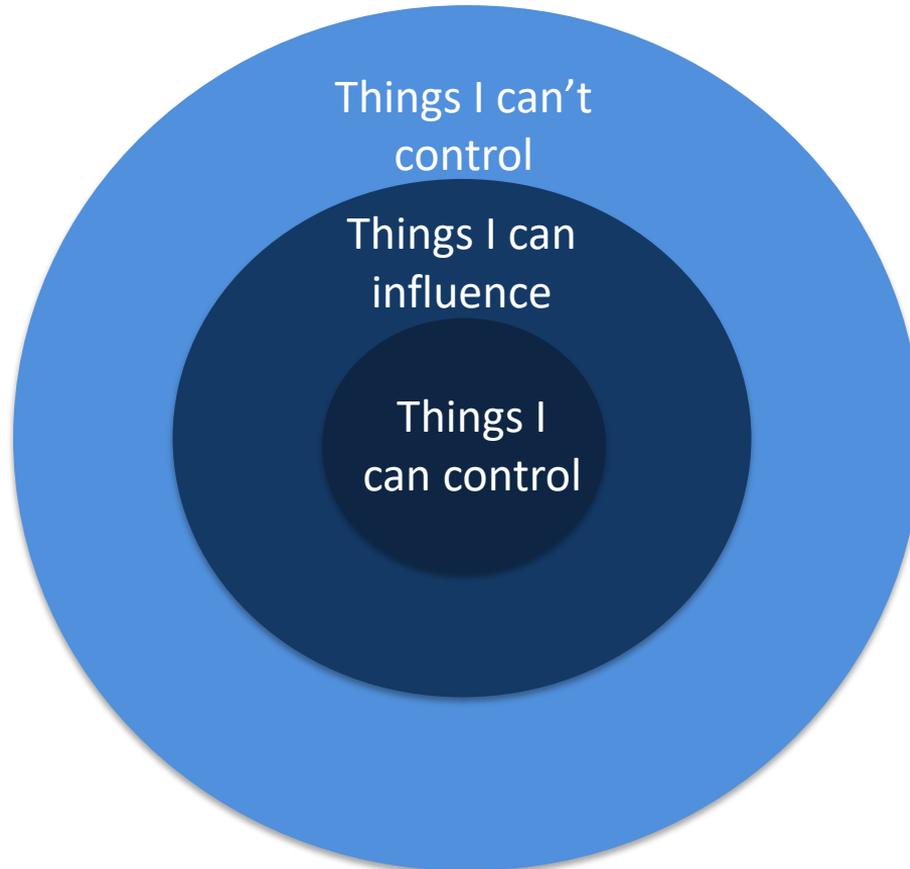

# Value of using a self assessment tool

- Place to start
- Suggested areas to review
- Structure
- Team engagement
- Feedback to seniors
- Improved understanding of your system
- Generate change ideas

# We are all part of the system

# Key Learning and reflections

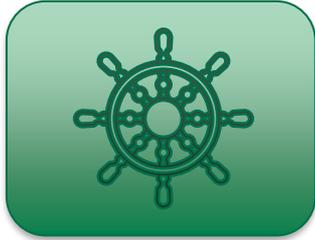

- Tool gave structure & place to start
- Really engaging for staff – love a post-it note!
- Key to better understanding your system and generating the best change ideas

# Next steps for you

Present

## Codesign

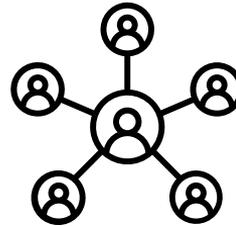

Multidisciplinary  
Expert Reference Group

SPSP Acute Adult Programme  
Pressure Ulcer  
Change Package  
2023

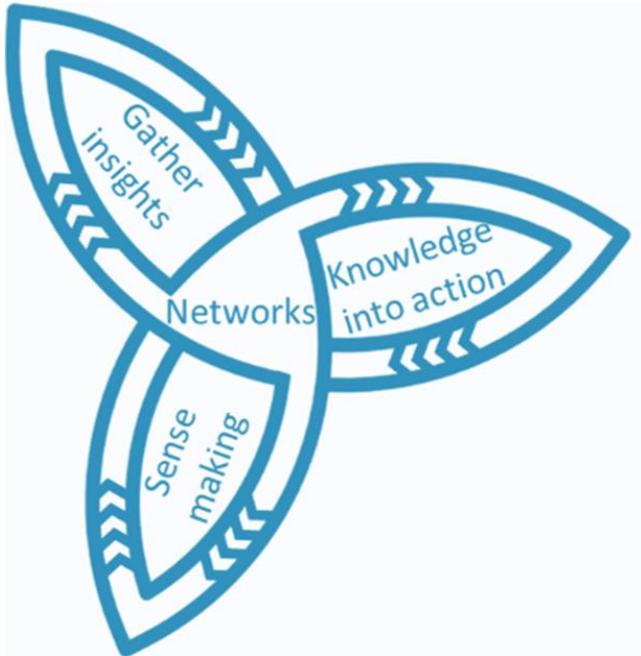

## Learning system

SPSP Pressure Ulcer  
improvement network

- Working closely with National Association of Tissue Viability Nurses (NATVNS)
- Creating a Q Special Interest Group, with group convenors: Donna Frew, Senior Improvement Advisor, HIS, Heather Hodgson, Lead Nurse Tissue Viability, NHS GGC and Laura Keel, QI practitioner, NHS Highland

# Next steps

- Gather insights
  - Data submissions and reports
  - Progress reporting
  - Spotlight sessions
- Sense making
  - Project surgeries (active participation)
  - Improvement networks
  - Learning sessions
- Knowledge into action
  - Testing changes

Healthcare  
Improvement  
Scotland

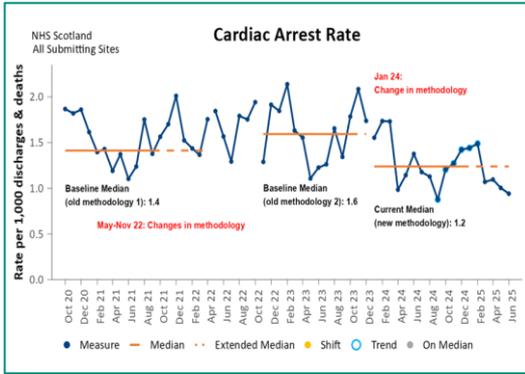

# Deteriorating Patient Breakout session

25 November 2025

Leading quality health and care for Scotland

# Deteriorating patient : Where are we now?

- Current national median 1.2 / 1000 deaths & discharges
- Outcome data only
- No process measures reported nationally

- Feedback from previous network meetings and the national event has highlighted an appetite for focused improvement work around Treatment Escalation Planning

# Next Steps: Accelerated Improvement roadmap

Create the climate for change

Make the change happen

Implement and sustain for change

## Weeks 0 – 3 Creating conditions

**Goal:** build team and establish baseline.

- Identify your team
- Gather baseline data
- Complete self evaluation tool

## Weeks 4 - 9 Understanding systems & developing aims

**Goal:** understand your system and define improvement goals.

- Use QI tools (Pareto, Fishbone, Cause and effect) to understand your system
- Draft a STAN aim (e.g. % improvement of patients with a completed DNACPR form and a TEP)

## Weeks 10 – 20 Testing change ideas

**Goal:** to run rapid PDSA cycles

- Pilot ideas
- Collect data weekly
- Refine / change based on what is working

## Weeks 21 – 24 Implement & spread

**Goal:** sustain & scale

- Adopt successful changes
- Standardise your improvement
- Share your learning

# Falls network Breakout session

25 November 2025

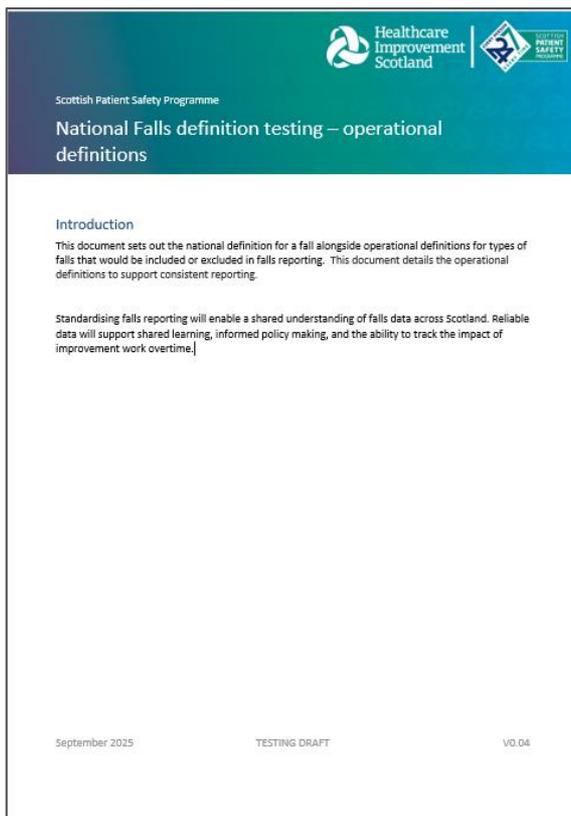

Leading quality health and care for Scotland

# Falls network

# Falls definition testing

## Aim:

Standardising falls reporting will enable a shared understanding of falls data across Scotland. Reliable data will support shared learning, informed policy making, and the ability to track the impact of improvement work over time.

- Co-produced operational definition and risk matrix
- 4 testing boards
- Implementation planning

Healthcare  
Improvement  
Scotland

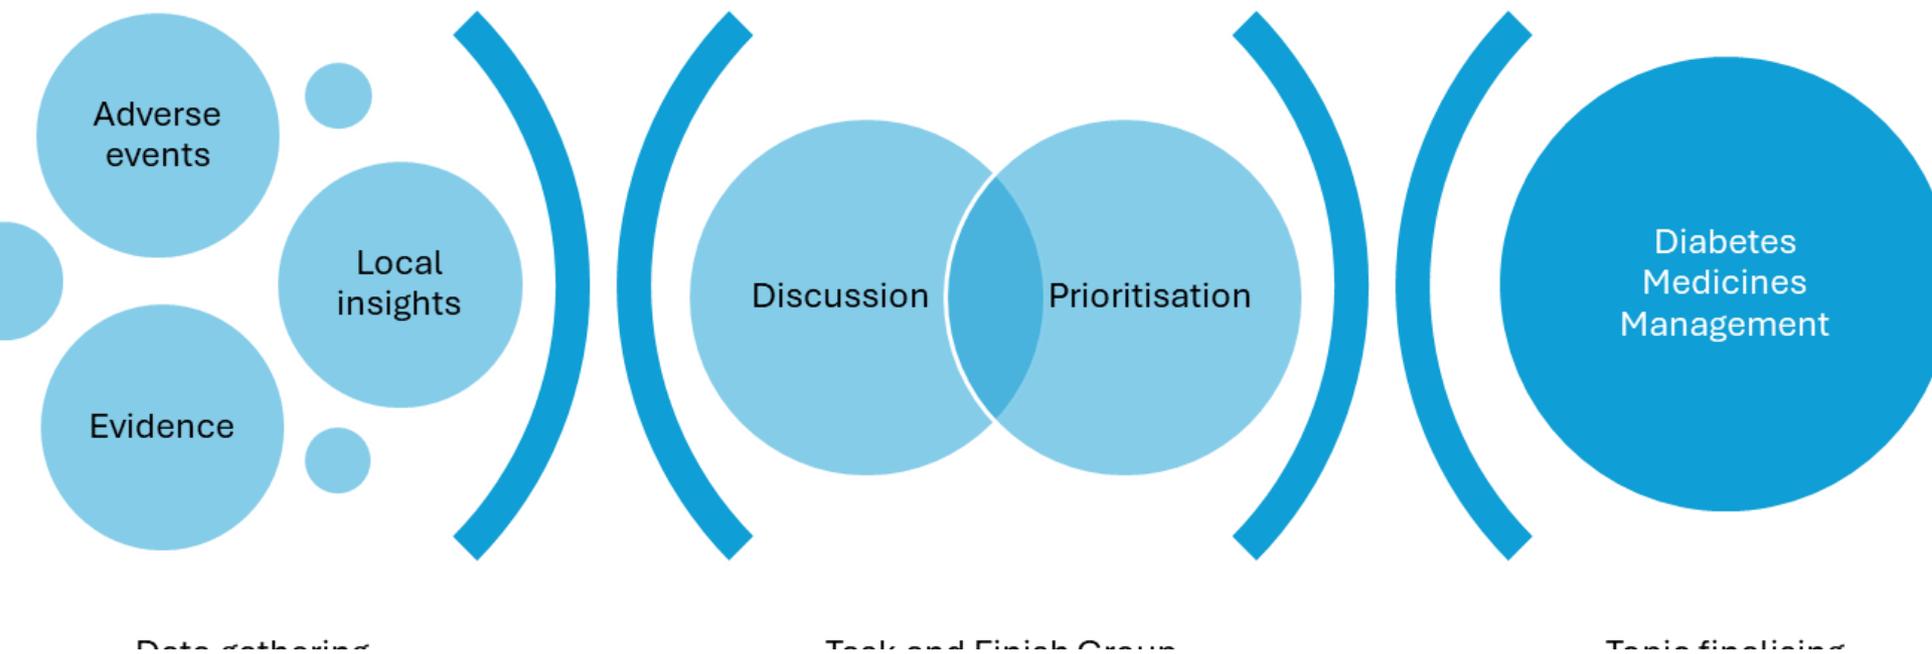

# Medicines Breakout session

25 November 2025

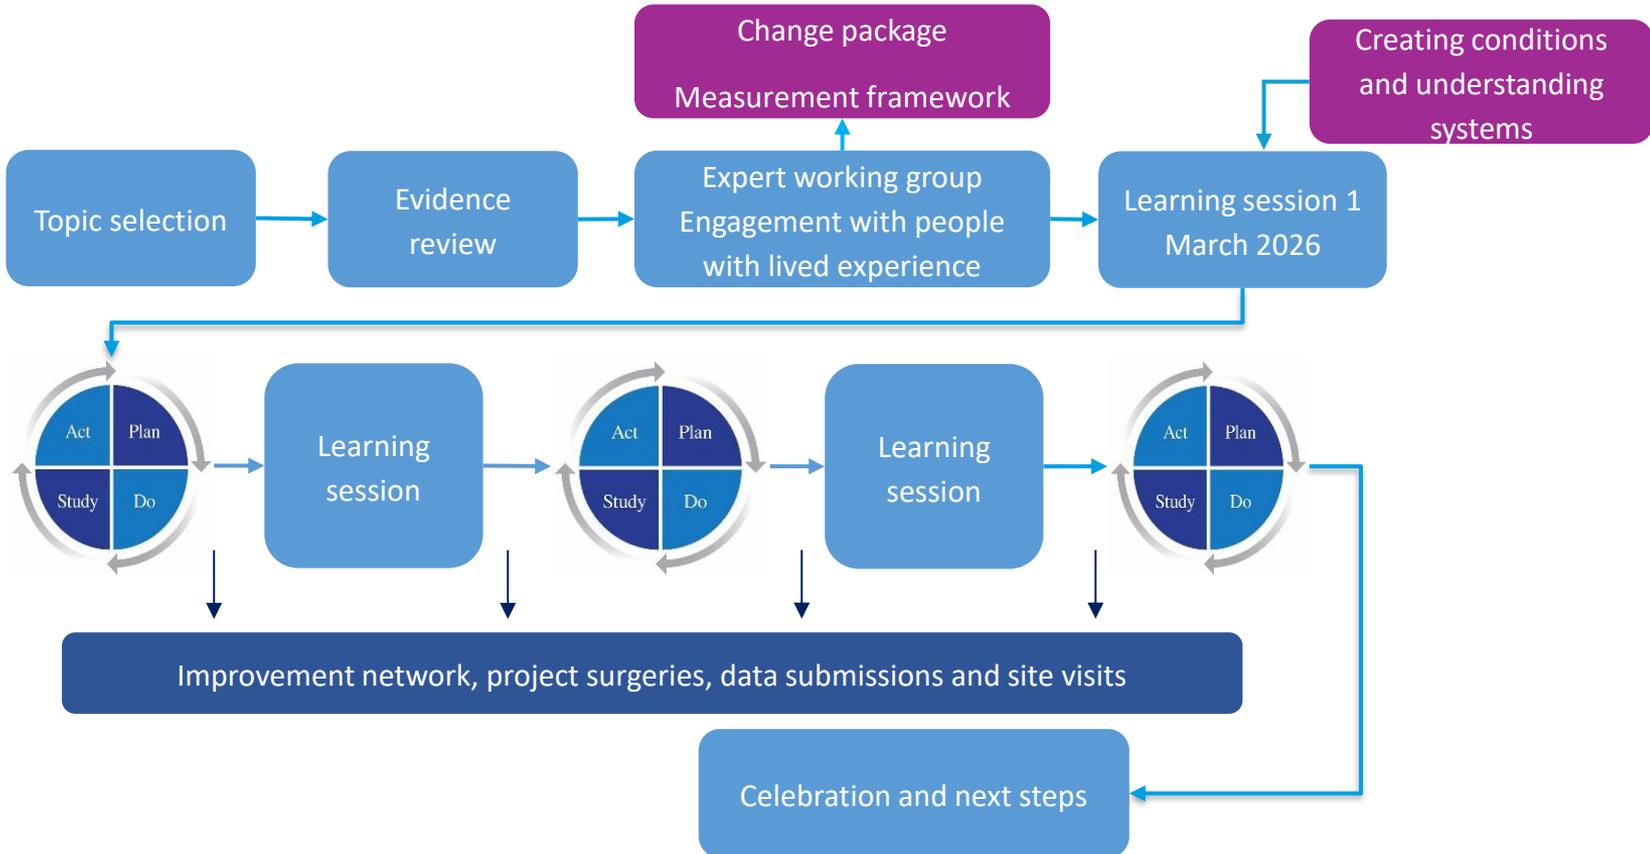

Leading quality health and care for Scotland

# Finalising diabetes medicines in transitions in care

# SPSP Medicines in Hospital programme structure

# To end of spring 2026

Expert Working Group Drop in

Draft national aim and driver diagram

Revise and refine

Finalise with change ideas

Measurement framework

## Board teams

1. Create the team
2. Consider readiness for change
3. Understanding system

# Feedback

In the chat box:

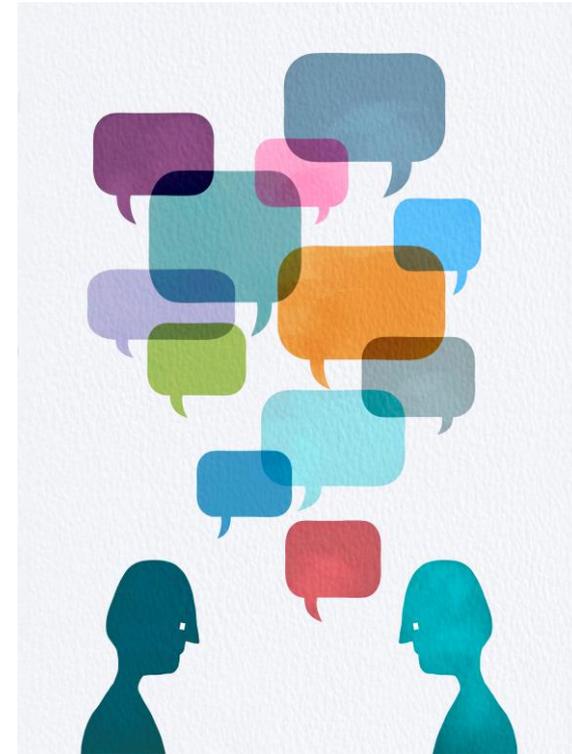

State the breakout room you were part of

And

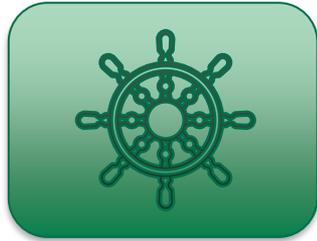

1 key learning point you will take away or connection you will commit to making following your breakout room discussions
