

Citizens' Panel for health and social care

This infographic summarises the key findings from the eighteenth survey. We asked questions about:

1 - Views on Hospital at Home and 2 - Attitudes toward organ and tissue donation after death

In total 646 panel members responded to the survey by post and email, which represents a 60% response rate.

Stay in Hospital

"The comfort and familiarity of my own home and far less disruption to me and my family."

"I don't know enough detail about Hospital at Home to make a decision and it would depend what the health care issue was."

"Would need a 24 hour contact experienced in condition affecting patient, not a general number."

"If acute care is needed you should be in hospital in case patient deteriorates quickly."
